

Anurag Yadav

Web Developer

I am a problem solver who is dedicated to creating high-quality, user-friendly websites that meet the needs of both the client and the end-user. I am always looking for ways to improve my skills and stay up to date with the latest web development trends and technologies. As a web developer, my primary focus is on the creation, design, and maintenance of websites and web applications. I have expertise in a variety of programming languages, including HTML, CSS, JavaScript, and others. I am proficient in creating responsive designs that adapt to different screen sizes and have working on front-end frameworks such as Bootstrap and React. And I also have the knowledge on database management system.
